Summary

Passionate and detail-driven Front-End Developer with hands-on experience in React.js and Vue.js. Proficient in developing responsive user interfaces, integrating RESTful APIs, and managing state using Redux Toolkit, Context API, and Vuex. Well-versed in modern UI/UX standards, performance optimization, and component-based architecture. Seeking an opportunity to contribute to real-world projects and advance technical skills within a collaborative development team.

Experience

Jspider Training and Development Center, Bangalore

July 2024 – December 2024

Front-End Developer

Banglore

During my internship at Jspider Training and Development Center, I developed responsive web applications using React.js and Tailwind CSS. I built reusable UI components, integrated RESTful APIs with Axios and Fetch, and managed application state efficiently using React Hooks and Context API. I focused on performance optimization techniques such as lazy loading to improve application speed. Throughout the internship, I collaborated with the development team in an agile environment, contributing to code reviews and ensuring high-quality deliverables.

Projects

E-Commerce Website-React.js

July 2024 – December 2024

Developed a responsive e-commerce platform featuring product listing, search, and cart management using React.js and React Context API for state management. Optimized app performance with lazy loading.

<https://ecommerce-vibewear.netlify.app/>

Built a scalable and user-friendly e-commerce frontend, focusing on seamless UI and efficient state management.

React.js, Context API, Lazy Loading, E-Commerce, Web Development, Front-End

Movie Search App – Vue.js

January 2024 – April 2024

Developed a movie search application using Vue.js that integrates with a public movie API. Implemented search functionality, dynamic results rendering, and a user-friendly interface.

<https://filmlookup.netlify.app/>

Created a responsive and interactive movie search app focusing on component-based architecture and efficient state management.

Vue.js, API Integration, Movie Search, Component-Based Architecture, Front-End Development

Education

Acharya Institute of Graduate Studies, Bengaluru

November 2022 – December 2024

CGPA: 7.2

Master of Computer Applications (MCA)

Veer Narmad South Gujarat University, Gujarat

June 2018 – May 2021

CGPA: 6.8

Bachelor of Computer Applications (BCA)

Skills

Technical Skills:

JavaScript, React.js, Vue.js, Tailwind CSS, Redux Toolkit, Vuex, RESTful APIs, Axios, Git/GitHub, MySQL, Postman, VS Code

Soft Skills

Problem Solving, Team Collaboration, Effective Communication, Adaptability, Leadership

Languages

English, Hindi, Gujarati
