• prajapatikaushik6392@gmail.com

Objective

As a recent graduate with a strong foundation in web development and a focus on React.js and Vue.js, I am seeking a Frontend Developer / React Developer Internship to gain hands-on experience in a professional environment. I have practical knowledge of building reusable components, managing state, and integrating RESTful APIs to create dynamic and responsive web applications. Passionate about learning and staying updated with the latest web technologies, I am eager to contribute my skills, collaborate with a development team, and enhance my expertise in modern frontend development.

Experience

Front-End Developer Intern

Jspider Training and Development Canter, Bangalore

July 2024 – December 2024

- Developed responsive web applications using React.js and Tailwind CSS.
- Built reusable UI components and optimized performance.
- Integrated RESTful APIs using Fetch and Axios.
- Managed state with React Hooks and Context API.

Projects

E-Commerce Website

<https://e-commerce-website-frontend.vercel.app/>

- Built an E-Commerce platform with product listing, search, and cart management.
- Used React Context API for state management and optimized performance with lazy loading.

Yummigo-Food

<https://yummigo-food-app.vercel.app/>

- Built a food delivery web app with restaurant listings, dynamic menus, and cart features using React.js.
- Used Redux Toolkit for state management and optimized performance with lazy loading and code-splitting.

Portfolio Website

<https://portfolio-topaz-chi-63.vercel.app/>

- Designed a personal portfolio website showcasing projects, skills, and experience.
- Implemented SEO-friendly components and modern UI/UX for cross-device compatibility.

Vue.js Todo List

<https://todo-list-vuejs-two.vercel.app/>

- Created a fully functional todo list application using Vue.js with add, delete, and mark-complete features.
- Focused on component-based architecture and local state management.

Vue.js Movie Search App

<https://movie-search-app-vuejs.vercel.app/>

- Developed a movie search application using Vue.js that integrates with a public movie API.
- Implemented search functionality, dynamic results rendering, and user-friendly UI.
