Experience

Jspider Training and Development Center

Front-End Developer Intern

Jul 2024 - Oct 2024 Bangalore

- Developed interactive and responsive web applications using React.js and Tailwind CSS.
- Enhanced UI/UX by implementing modern design patterns and ensuring accessibility.
- Gained hands-on experience in state management, API handling, and performance optimization.

Projects

Dice Game (React.js)

GitHub: Dice Game Repository

Developed an interactive Dice Game using React.js, allowing players to roll dice and determine the winner. Utilized React Hooks and state management for real-time interactions and game logic. Ensured a fully responsive UI using CSS and Tailwind CSS for an optimal user experience.

Tic Tac Toe Game (React.js)

GitHub: Tic Tac Toe Game Repository

Created a classic Tic Tac Toe game using React.js, offering a smooth and interactive user experience.

Integrated game logic with React state for real-time gameplay updates.
Optimized the application for performance and responsiveness across multiple devices.

E-Commerce Website (React.js, Tailwind CSS)

Built a fully functional E-Commerce website using React.js and Tailwind CSS v4.
Implemented product listing, search functionality, authentication, and cart management features.
Used React Context API for efficient state management and API integration.
